*Synchronise your Google Calendar*

*Dear Consultant, simply check your calendar on your smartphone.*

## ❖ Stock & Suppliers

FlexiSoft incorporates a stock control system.

Keep track of your **Stock Levels** and your **Suppliers** details.

FlexiSoft will instantly tell you **Purchases** and **Sales** amounts from your suppliers. It will also highlight your TOP 10 stock items.

## ❖ SMS

What better way to stay in touch with your clients than an **SMS** Facility?

**Effective:** 95% of text messages are opened with 15 min versus about 22% of emails that are opened ever. SMS is most effective for creating repeat business & creating instant traffic.

**Growth:** Text messaging is a trend that is growing by the day. In the year 2000, Americans sent an average of 35 text messages/month. In 2007, Americans for the first time in history, send/receive more texts per month than phone calls. By 2011, Americans have sent 357 texts per month. That's nearly 1.5 trillion in a year!

**Low Cost:** Traditional marketing can cost hundreds per month. SMS is a cheap and professional way of communicating with your clients.

**Green:** SMS Marketing doesn't kill trees, there's no wasted paper. Also no animals were harmed in the writing of this article, nor do we test our SMS Messages out on animals first.
